

Do I need a SCAN and what SAQ do I complete?

Most likely you are Type 3, 4, or 5. If you are storing Card Data electronically, regardless of processing method you are Type 5.

1	2	3	4	5
Card-not-present merchants, (e-com. and Mail/Phone orders) all cardholder data functions outsourced.	Imprint-only merchants with no electronic cardholder data storage	Stand-alone terminal merchants, no electronic cardholder data storage. (Non-IP Dial terminals)	Merchants with POS systems or IP Terminals connected to the Internet, no electronic cardholder data storage.	All other merchants (not included in Types 1-4). You Store Electronic Card Data.
